As a computer science graduate specializing in React.js, I've got a knack for building dynamic user interfaces. I'm well-versed in JavaScript, HTML, CSS, and React.js, and I enjoy tackling complex problems to deliver high-quality applications. I'm all about continuous learning and teamwork, and I'm excited about the possibility of bringing my skills to your projects. Let's connect and chat about how I can contribute to your team!

Professional Experience

KnowQuest

May 2023 - Present

Lead Frontend Web Developer

I lead cross-college student management while crafting engaging website experiences. I offer expertise in delivering wireframes and design patterns, ensuring a seamless blend of functionality and visual appeal. Proficient in React.js, JavaScript, HTML, CSS, with MongoDB driving the backend.

Education

Bachelor's degree in Computer Science August 2019 - May 2023

University at Albany, Albany, NY

Diploma September 2015 - June 2019

Comsewogue Highschool, Port Jefferson Station, NY

Key Skills

React

Git

HTML & CSS

Javascript

MongoDB

Figma

Projects

Ticket Wizard

I played a key role at Ticket Wizard, where I developed a website using React.js and MongoDB. Specifically, I focused on implementing flight APIs and designing the UI/UX for the platform. The website allows users to easily find the cheapest ticket information between two IATA codes.

Resume Website

Designed and developed a personalized resume website from scratch using HTML, CSS, and JavaScript. Implemented an interactive and user-friendly interface to showcase professional achievements, skills, and experience. This project demonstrates my proficiency in front-end technologies and creative web development.
